1) *corresponds to end of production.

2) ** LB corresponds to low/passing beam, HB corresponds to high/driving beam

3) The specified high beam index I'M with H7-LED or H4-LED differs from the specification on the headlamp. The permissible sum of the main beam characteristics of all main beam headlamps must not exceed 100. Reference mark I'M with H7-LED or H4-LED for the main beam of each model is as below.

4) In the event of an error message, the optional CANbus must be used.

5) Vehicles (SO.KFZ Wohnmobil and other classes / body types) are also approved whose headlights correspond to the listed UN(ECE) type approval and have received a multi-stage approval on the basis of the named basic vehicle.

6) The road approval of the Philips Ultinon Pro6000 LED lamp is only valid if installed where required with Philips original accessories. Please check the compatibility list to see if additional accessories are required for your vehicle.

7) The road approval for the Volkswagen T5, only applies when the H4 lamp type is installed. Please check whether your vehicle is equipped with H4 halogen lamps before purchasing.

8) For vehicle models with faulty cornering light function, the use of the optional CANbus is required.

9) The year of production is not relevant for the approval. It serves as means for orientation.

10) Note W5W-LED: The interior lighting of the vehicle, unlike the exterior light functions, is not subject to any legal restrictions regarding vehicle model or light function. Here, the W5W-LED can be used freely, wherever applicable, as
