

## OZZ RL2 65

The OZZ RL2 65 is a compact LED unit combining an E-approved reverse light with a high-performance amber warning light. With 1207 lumens and 1 lux at 30 meters, it provides clear illumination for reversing and effective visibility for warning purposes. The built-in warning function supports both day and night modes and can be synchronized with up to eight units for full 360° coverage. Its ultra-slim design allows flexible installation on various vehicles, including work trucks, machinery, and custom builds.
